## Content Outline

### Printing in East Asia

I would like to build a site with multiple pages, each dedicated to a subset

1. Woodblock printing in Japan  
[https://en.wikipedia.org/wiki/Woodblock\\_printing\\_in\\_Japan](https://en.wikipedia.org/wiki/Woodblock_printing_in_Japan)
  - a. History
  - b. Technique
2. Movable type  
[https://en.wikipedia.org/wiki/History\\_of\\_printing\\_in\\_East\\_Asia#Movable\\_type](https://en.wikipedia.org/wiki/History_of_printing_in_East_Asia#Movable_type)
  - a. Ceramic and wooden movable type in China
  - b. Metal movable type in China and Korea
3. Sources – there are a few different Wikipedia pages to be used, and images would probably be best to be outsourced
